THIS WOMAN SAVED FROM AN OPERATION

By taking Lydia E. Pinkham's Vegetable Compound, One of Thousands of Such Cases.

Black River Falls, Wis.—"As Lydia E. Pinkham's Vegetable Compound saved me from an operation, I cannot say enough in praise of it. I suffered from organic troubles and my side hurt me so I could hardly be up from my bed, and I was unable to do my housework. I had the best doctors in Eau Claire and they wanted me to have an operation, but Lydia E. Pinkham's Vegetable Compound cured me so I did not need the operation, and I am telling all my friends about it. Mrs. A. W. Binger, Black River Falls, Wis.

It is just such experiences as that of Mrs. Binger that has made this famous root and herb remedy a household word from ocean to ocean. Any woman who suffers from inflammation, ulceration, displacements, backache, nervousness, irregularities or "the blues" should not rest until she has given it a trial, and for special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass.

BERLIN REPORTS WAR PROGRESS

Admits British and Belgian Attacks and Withdrawal of German Front to Rear Positions.

BERLIN, Sept. 29, via London.—The German official statement issued from general headquarters today reads:

"The British, in connection with the Belgians, extended their attacks against Cambrai. The French and Americans attacked the main line in the Champagne as well as in the Argonne and the Meuse.

"From the coast to the south of the Lys there was a violent artillery duel during the night which increased to the strongest gunfire in the morning hours. Between Dixmude and Wulverghem the enemy succeeded in taking our crater positions and in pressing forward in places into our artillery lines. The enemy attack was brought to a standstill in the afternoon on the line Woumen-Clerken-Houthulst-Passchendaele-Beeselerne-Zandvoort-Hollebeke. Attacks that were launched in the evening against this line were repulsed with the help of reserves. The heights of Wyttschaete were held against repeated enemy attacks.

"West of Cambrai early yesterday (Saturday) in consequence of the loss of the canal positions (Canal du Nord) on both sides of Marquain in Friday's fighting we withdrew our front from open territory into rear positions on a line with Arleux to Aubigny to west of Cambrai and behind the canal (Scheldt) southwest of Cambrai at Maroing with a junction with the old line near Villers-Guislain with war of Gonnelieu. The movements were carried out during the night undisturbed by the enemy. In the morning the enemy for a long time kept the evacuated territory under fire. At midday he began to press forward sharply and attacked north-west and west of Cambrai with strong forces. He was repulsed as also were attacks in the evening directed against our lines south of Maroing.

"Between the Ailette and the Aisne we withdrew our lines without enemy interference behind the Oise-Aisne canal between Amilly-le-Chateau on the Ailette and Bourg on the Aisne. The movement which had been prepared for some days ago was carried out according to plan and was not disturbed by the enemy.

"There were successful forefield engagements west of the Suppe (Champagne). Between the Suppe and the Aisne and between the Argonne and Meuse the enemy continued his strong attacks. They were especially heavy yesterday and extraordinarily sanguinary for the enemy. Our troops fighting in this region were of all the German races and again fought magnificently despite the heavy demands made upon them in the last few days, gaining complete defensive success.

"The French, who attacked on the whole front between the Suppe and the Aisne at some places as many as six times, were led by strong squadrons of armored cars were thrown back in desperate fighting. Their only success consists in the capture of Somme-Py and in small insignificant indications of our defense front.

"In the Argonne night before last in consequence of the enemy advance into the Aire valley, we withdrew our lines as far as the region southwest of Binerville, southwest of Apremont.

"Against the eastern edge of the Argonne forest and against the line Apremont - Cierges - Brielleles the Americans launched many attacks, partly with new divisions. They were able to gain local successes near Apremont and east of Cierges. They pressed back our lines here early in the morning as far as the Cunel and Fays woods but here as well as on the remainder of the front enemy attacks failed with very sanguinary losses as the result of our defense fire in stubborn hand-to-hand as the result of our successful counter attacks.

"Our last echelons attacked with great success the enemy storming edge of the Aire and in yesterday's fighting 150 enemy tanks were destroyed.

"Yesterday we shot down thirty-two enemy airplanes and three captive balloons."

GOLF CONTEST FOR THE C. A. DAY CUP

Mrs. A. P. Bigelow was the winner in yesterday's tournament for the C. A. Day cup at the Ogden Golf and Country club.

A line contest for the September cup was won by A. P. Bigelow in a hard game. The winner offers a cup for the October tournament.

THIN PEOPLE NEED BITRO- PHOSPHATE

How it Increases Weight, Strength and Nerve Force in Two Weeks' Time in Many Instances.

"Take plain bitro-phosphate" is the advice of physicians to thin, delicate, nervous people who lack vim, energy and nerve force, and there seems to be ample proof of the efficacy of this preparation in the numerous testimonials. Moreover, if we judge from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and cracks by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness. Thinness and weakness are usually due to starved nerves. Our bodies need

Miss Josephine Davis, reporting her own experience with BITRO-PHOSPHATE, says: "It is remarkable what it did for me. After a few days I began to regain my strength, felt full of life, was able to sleep soundly and all my little troubles seemed to disappear. I gained twelve pounds in four weeks."

more phosphate than is contained in nature's food. Physicians believe there is nothing that will supply this deficiency so well as the organic phosphate known as bitro-phosphate. Bitro-phosphate, which is inexpensive and is sold by most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate quickly produces a welcome transformation in the appearance: the increase in weight, the increase in vim, also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, soon disappear during the use of bitro-phosphate. The glow with the bloom of perfect health.

CAUTION.—Although Bitro-Phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, owing to its remarkable flesh growing properties it should not be used by anyone who does not desire to put on flesh—Advertisement.

SHORTAGE OF GRAIN CARS IN IDAHO

(Special to the Standard)

POCATELLO, Idaho, Sept. 30.—With a reported shortage of grain cars and storage facilities for but one-third of the state's grain yield, a condition confronts the people of Idaho that isn't pleasing during these times. Besides the shortage of grain cars, the Oregon Short Line has recently reported to the public utilities commission that the road is behind its orders for cattle cars to the number of 748.

Farm labor in the harvesting fields is also causing a little anxiety. From Ashton yesterday came a call for men and teams. The request for teams was received by Federal Labor Agent P. E. Long in this city.

CATHOLIC SERVICES ARE HELD IN LOGAN

The first Catholic services at Logan were held yesterday morning. About twenty-five members of St. Joseph's parish, together with about 75 soldiers stationed at the college were present. Mass was said by Rev. Father Stanton, who has been assigned as chaplain at Logan. The sermon was preached by Monsignor P. M. Cushman of Ogden. The services were patriotic in character. The opening song, "The Star Spangled Banner," was sung by members of the local choir, Miss Cecil Ragan, Miss Genevieve McNulty, Miss Mary Dermody, Mrs. S. P. Dobbs, Mrs. R. P. Morrissey, Mrs. Walter Smyth, J. A. Junk and S. C. Baughman.

JUST THINK OF CADOMENE

When You Find You're Losing Out in the Game of Life.

Worn-Out, Nervous Men and Weak, Bloodless, Anemic Women Have Found New Strength and Vigor in Taking Cadomene Tablets.

A well known writer on physical culture says: "You cannot run a high-powered engine without fuel. You cannot get much speed without plenty of steam. You cannot get up much steam without plenty of coal and a perfectly working furnace (body). Similarly, in your own case, the internal 'works' must be sound and working properly." That tired feeling—do you know what it means? It means that digestion and nutrition are lacking. It means that your blood and nerves are impoverished. It means that slow but sure decline in your vitality will surely ensue and real sickness will overtake you, unless you bestir yourself in overcoming the weakness of the organs responsible. This is not written to frighten. In reality it expresses logical facts. Cadomene Tablets, the favorite prescription of a great physician, are made, and sold by druggists for people who need help for nature's forces, owing to neglect, neglect or dissipation of one kind or another. Every package is guaranteed to please or money back—Advertisement.

AMERICAN FORCES GOING FORWARD

Advance Greatest on Right and Least in Sector-Germans Fighting Bitterly.

WITH THE AMERICAN ARMY NORTHWEST OF VERDUN, Sept. 29.—The American troops continued to make progress although slowly, all day yesterday. The advance was greatest on the right of the sector and least in the center where the Germans counter-attacked violently. The enemy gained nothing by these efforts, however, except to weaken the American advance temporarily. On the American left the Germans have resorted to heavy machine gun and trench mortar fire. The artillery activity has increased along the entire line with the Americans easily outshooting the enemy. East of the Meuse the German artillery fire has been quite heavy.

Enemy Offers Bitter Resistance. At Exermont, just east of the Argonne forest the enemy offered bitter resistance.

Northeast of Nantillois, somewhat east of the center the Americans already have advanced beyond their positions of yesterday morning. The Americans there took prisoners from the Bavarian reserve division which had been resting in Alsace and moved into the line yesterday. They also took prisoners from another reserve division which had sent one battalion from each regiment into the line.

Germans All Reinforced. Enemy resistance increased steadily on the left of the American sector and a number of new German units have been identified. The enemy troops in many instances yesterday held on to machine gun nests until they were literally wiped out. The American extreme left continues to advance steadily along the edge of the Argonne forest. From batteries east of the Meuse the Germans last night bombarded heavily the region of Brielleles and other points on the right of the American line.

AMERICAN KILLS TEN HUNS.

WITH THE AMERICAN ARMY NORTHWEST OF VERDUN, Sept. 29.—American staff officers visiting a battlefield on this sector Saturday found a dead American soldier surrounded by ten dead Germans, whom he apparently had killed before being slain himself.

GERMANY SENDS THREAT TO U. S.

Claim They Have Captured Shotguns and Will Take Reprisals If Use Is Not Discontinued.

AMSTERDAM, Sept. 29.—Germany, through Swiss legation, has sent an ultimatum to the government of the United States that if no satisfactory answer is forthcoming on October 1 to the German protest about the use of shotguns by American soldiers "reprisals will be taken."

A semi-official telegram from Berlin gives the following additional details of the note:

From prisoners captured during a skirmish between patrols on July 27 a repeating shotgun was taken. The prisoners, who belonged to American infantry regiment 207 of the 77th division, stated their patrol possessed three such guns, each loaded with six cartridges and each cartridge containing shots of size 00.

Another shotgun was captured on September 11 from the Third infantry regiment of the Fifth American division.

The use of such weapons is forbidden by the Hague convention as causing unnecessary suffering. The German government protests energetically and expects from the United States government that steps will be taken immediately to discontinue the employment of shotguns.

It is pointed out to the government of the United States that a prisoner on whom a shotgun or shotgun ammunition is found forfeits his life.

YANKEES TAKE MORE TERRITORY

Germans Fighting for Time With Backs to Kriemhilde and Brunhilde Lines.

WITH THE AMERICAN ARMY NORTHWEST OF VERDUN, Saturday, Sept. 28. (By the Associated Press).—Fighting their way almost every yard, American troops today wrested from the Germans another strip of territory. Although they are opposing the advancing Americans with every man of the service, except cavalry there is increasing evidence that the Germans are only fighting for time to establish themselves along the Kriemhilde or Brunhilde lines. The present operation is a rear guard action on the part of the enemy, but on a big scale, and once more he has adopted sacrificial tactics to impede the advance.

With heavy artillery preparation the Americans have moved early in the day. It was not fast going but woods after woods were cleaned out and villages fell before the steady push. Fires beyond the lines marked points where the Germans apparently were destroying warehouses and stores, the transportation of which might hamper their retreat.

From the bend in the Meuse to the west flank the Americans fought their way out of the tangle of the Argonne forest and established a new line. Across the Meuse the village of Vilosnes was reported by aviators to have been blown to pieces by enemy mines. All bridges over the river in this section have been destroyed.

A little to the west the evacuation

OGDEN ELECTRIC SUPPLY CO.

2430 Washington Ave.

(By the Associated Press)—American aviators again demonstrated Saturday that they are the masters of the air on this sector. They engaged in fifty-two combats and brought down thirty-three enemy machines without the loss of one American pilot.

Germans Are Lost. The German airman appear to have lost the during which has characterized their work of the previous days and did not venture across the American line with reconnaissance airplanes after they had been attacked once by the American machines. The German balloons were hastily lowered in the face of an American attack and did not appear again during the day.

One of the American pursuit groups engaged in twenty-three combats at low altitudes and brought down three enemy machines. Another pursuit wing had seventeen battles in two sorties along the line. A third group dropped bombs on Romagne and Cunel and engaged in several battles with German machines, bringing down six of them.

Tanks Doing Great Work. Far to the left a number tanks that had
